

The **A1 advertising stand** is among the most effective yet simple display systems. Its great advantage is in its wide field of uses both indoors and outdoors with maximum advertising space on both sides. The graphics, which are covered by a protective layer, are fixed by clamping strips – so-called frame flaps. Manipulating the A1 advertising stand and replacing the graphics is childs play. The A1 advertising stand – or A-frame is set up without any need to wait.

Width: 66 cm
