

The **Expand MediaFabric** allows you to impart information in a simple and elegant way. The large display area has no obstructive elements and provides an attractive visual display solution. The sides of the apparatus can also be covered with the graphics fabric which gives another dimension to your display. Portability has a whole new meaning with the Expand MediaFabric. The extremely light, yet stable and hard-wearing apparatus comes with a practical carrier bag and is easily transported and erected. In no time at all, you can have everything ready for a quality display. Within less than a minute, you can erect a graphics wall of more than 5 square metres!
