

The **Expand MediaScreen 2** for interior use is a stable, double-sided system which is comprised of two retractable graphics banners which work independently of each other and has a wide spectrum of uses. It is particularly suitable for airports, shopping centres, banks, or basically for any place where a display is required to be seen from both sides. The Expand MediaScreen 2 has an elegant clamping system which prevents the pole from protruding above the image, which contributes to creating the best possible impression.

Width: 85 and 100 cm
