

The **POPUP 3T** advertising wall allows you to convey the necessary information in a simple and elegant way. The large display area, made from a special printed fabric, gives your display an attractive look. The mobile POPUP 3T advertising wall is extremely light, yet stable and hard-wearing. It can be easily carried in a practical transport box included in the set, which is designed for the whole apparatus and graphics. A big advantage is the POPUP 3T's exceptionally simple assembly and disassembly due to the option of having the fabric permanently fixed to the apparatus.
